

Advanced Wound Healing Center at Tokyo Rosai Hospital

The multidisciplinary team at the Advanced Wound Healing Center can treat:

- Foot or leg ulcers and gangrene (due to diabetes, poor circulation, venous stasis, neuropathy, and immobility).
- Traumatic or Surgical wounds that are not healing.

Our purpose is to heal patients as quickly and safely as possible and to prevent amputations.

For more information or to make an appointment, call the Advanced Wound Healing Center at 03-3742-7301.
